

6 October Friday									
Section A2 - Szalma, Klebovich					Section B1 - Kerec-Kos, Süle				
1:20	8:30	9:50	New drug targets and biomarkers		1:30	8:20	9:50	Hospital pharmacy - Oncology 1	
0:20	V2-3	Bagdy	Hypothesis driven versus genome wide association studies: which one is more relevant for precision medicine?		0:15	325	Kleiner	Innovative and well-tried approaches in treatment of the metastatic colorectal cancer	
0:15	307	Tököli	Characterization of the bacterial winged-helix domain of RecQ helicase. A novel antibacterial target.		0:15	394	Dóczy	The new era of thalidomide?	
0:15			Ganczler Katitól vki?		0:15	265	Tiszai	Potential advantages of nutritional status screening and Quality of Life measurements in	
0:15	209	Turiák	Nanoscale analysis of prostate cancer tissue microarrays		0:15	273	Csontos	Cardiotoxic effects of oncology therapies – clinical pharmacology aspects	
0:15	S6	Thermo	Triple Quadrupole or High Resolution Accurate Mass: The Quantitation Conundrum		0:15	141	Makó	Adverse reactions of PD1 checkpoint inhibitors in the therapy of malignant melanoma	
					0:15	71	Tóth	The efficacy of ginger (Zingiber officinale) for the prevention of postoperative nausea and vomiting	
0:05	9:50	9:55	Technical brake						
1:15	9:55	11:10	Plenary section 2 - New advances in cancer therapy - Mhrar, Soós						
0:25	V1-5	Kotschy	Restoring Programmed Cell Death – a New Approach in Cancer Therapy						
0:25	V1-16	Szentiványi	Next Generation Sequencing: The Future of Personalised Healthcare (PHC 2.0)						
0:25	V2-4	Batka Gábor	“It is in your hands” – How healthcare professionals can ensure their safety when handling hazardous drugs						
0:25	11:10	11:35	Coffee Brake						
Section A3 - Sricic, Greskovits					Section B2 - Yenice, Zupkó				
1:30	11:35	13:05	Manufacturing		1:30	11:35	13:05	Hospital pharmacy - Oncology 2, Workshop	
0:20	57 (+58)	Kollár	Development and manufacture of biosimilar medicinal products		0:15	374	MAGYOTT	“Primum nil nocere” – patient safety is at first place	
0:15	53	Bajdik	Innovative approach to improve the film coating efficiency with applying of a continuous film coater		0:15	996	Süle	Advantages and Disadvantages of Biosimilars – Safety and pharmacoeconomic aspects	
0:15	70	Korteby	A novel insight into Fluid Bed Melt Granulation: Temperature mapping for the determination of granule formation with the In-situ and spray-on techniques		0:15	119	Ábrahám	Professional and economic evaluation of Pharmaceutical Centre of Centralized Cytotoxic Drug Preparation	
0:15	370	Széchenyi	Application of solid nanoparticle as emulsifiers and surface modifiers in controlled drug delivery		0:45	S2		TEVA Workshop	
0:15	S3 (226)	Colorcon	Recent advances in Continuous Coating Technology						
0:10	S4	Able Jasco	JASCO solutions for separation and purification of pharmaceuticals compounds with carbon-dioxide						
1:15	13:05	14:20	Lunch
