

A day in the life of a hospital pharmacist..

Video Challenge!

Are you passionate about your job as a hospital pharmacist (or hospital pharmacy resident) and do you like making videos?

We invite you to showcase your creativity and insight into the world of pharmacy with our "A day in the life of a Hospital Pharmacist" video challenge!

To participate in the contest you are invited to make a 5-minute video highlighting different aspects of your daily routine, for example medication dispensing/compounding, multidisciplinary collaboration and patient consultations. You are also highly encouraged to showcase and put focus on the European Statements of Hospital Pharmacy that your hospital has implemented.

Feel free to use creative elements, such as storytelling, visuals, and music, to engage and educate your audience, however make sure the content you create is your own and free of copy rights.
